

NORTH CAROLINA RESPIRATORY CARE BOARD

1100 Navaho Drive, Suite 242
Raleigh, NC 27609

October 10, 2013

Anita Doster, MBA, RRT, RCP
Director of Respiratory Care
Carolinas Medical Center-Union
600 Hospital Drive
Monroe, NC 28112

Dear Ms. Doster,

This letter is sent on behalf of the North Carolina Respiratory Care Board in reference to your letter of July 16, 2013 requesting the Board's interpretation of state statutes and rules concerning Respiratory Care Practitioners (RCP) witnessing the wasting of medications at your freestanding emergency department.

The Respiratory Care Board discussed your request during its regular scheduled meeting held on October 10, 2013 and approved the following interpretation of the Respiratory Care Practice Act and Board rules concerning your request:

The Board has determined that a RCP may witness the wasting of medications at a licensed healthcare facility if he or she has documented training and annual documented competency reviews in the procedure approved by the facility. The facility where this procedure is performed must maintain policies and guidelines for performing the procedure, as it would for any procedures provided by the RCP's that it employs.

Please advise if you have any other questions about this issue.

Regards,

A handwritten signature in cursive script, appearing to read "Floyd E. Boyer".

Floyd E. Boyer, RRT, RCP
Executive Director
